

PATIENT: BLACKWELL, THEODORE R DOB: 09/14/1957 MRN: E4085221
DATE OF SERVICE: 11/14/2025 PROVIDER: S. Albright, PA-C (Dermatology)

REASON FOR VISIT

Annual full-body skin examination.

HISTORY

Pleasant gentleman presenting for routine skin check. History of seborrheic keratoses. No new or changing lesions reported. No personal or family history of melanoma.

EXAM

Full body skin exam performed. Multiple stable seborrheic keratoses on the back and chest. Scattered cherry angiomas. Mild xerosis of bilateral shins. No atypical nevi. No lesions suspicious for malignancy.

ASSESSMENT AND PLAN

1. Seborrheic keratoses - benign, no treatment required.
2. Xerosis - recommended daily emollient.
3. Return in 12 months for routine surveillance, sooner for any new or changing lesions.
